

Ideal solution for Better Construction

Heidelberg Materials, Germany with 150 years of experience, manufactures over 184 million tonnes of cement annually and has presence in 50 countries across the globe with 50000 employees in 3000 locations, making sure the our slogan "Material to build our future" is brought to life day after day.

Power SHIELD

Zuari power shield is a one-of-a-kind specially formulated cement made with latest technology and has excellent water repellent properties. Special additives used in the manufacturing Zuari power shield make construction more durable by providing water repellent properties in the cement along with high early and long term strength.

Zuari power shield acts like a shield against water seepage and keeps your construction strong, durable and maintenance free.

Benefits of Zuari power shield

Freedom From Seepage & Dampness

Restricts rate of flow of water through its pores & reduces capillary action thereby making it Seepage & damp resistant.

Efflorescence Resistant

Restricts the water transportation through concrete/mortar pores resulting in reduced salt efflorescence.

More Durability

Superior quality Zuari cement with added properties of water repellency prevents moisture & dangerous chemicals to ingress in concrete, making construction Impermeable, corrosion resistant and more durable.
